Subject: Tree works - 2, Emsworth Road, PO9 2SR

Dear Mr Gargett,

Thank you for informing me about forthcoming tree works at 2, Emsworth Road, PO9 2SR. Your ref : APP/17/00199 and APP/17/00139 I live at 1, Lymbourn Road, PO9 2SL and write to say that I am in full support of all the pollarding to the lime trees and reduction of the Bays . They obstruct most of the light from my kitchen , bathroom , stairs and dining room. I have to constantly have my gutters cleaned from dead bay flowers and leaves. They also grow several metres over my garden and have more than doubled in size since I moved here.

My neighbour approached me before submitting her application and is very keen to help me improve the problems her trees cause me.

I have agreed to give her tree surgeon full access to my garden so that they can carry out the aforementioned tree works safely and with the minimum disruption to Lymbourn Road while they are carried out. The Bays also block all the morning light from the cottages opposite me and I know that reducing their height and span will improve their homes also.

I have a similar problem with the overhanging bays and Leylandi at the end of my garden that belong to 2A, Emsworth Road but the current and previous owners are reluctant to keep them under control. They block all the morning light from my home and next door neighbours and would be grateful if you could encourage them to reduce their height by 6m also and cut them back to within the confines of their own garden.

If you need to inspect the problems these trees are causing me, please telephone and I will give you access from my garden.

What a relief it will be when they are back to a manageable size!

Yours Sincerely
Victoria Morgan,
1, Lymbourn Road,
PO9 2SL
