For the attention of Mr D Evans,

In regards to the planning application for construction of a four bed house at the site of 59 restawhile avenue, PO11 0PG.

My grandfather has already put forward his rejection towards the plans for the previous proposal and as a new resident of 107 kings road, I feel that I should express my concerns about the development should it go ahead. The traffic down kings road is awful and getting dangerous due to the parents of the children attending mill rythe infant and junior school using kings road and restawhile avenue as a short cut and a car park, also the use of the scout hut and parallel parking etc. I feel that adding an extra house to the corner would be a recipe for disaster during and after development. During the development I foresee accidents and after I can see huge problems with parking and traffic possibly causing congestion at millrythe, and possibly part of church road therefore causing a block throughout the street. Also the natural habitat of the site being used by the wildlife is a concern as to where the wildlife will go. The air pollution involved, and noise is also a concern [redacted]
husband, grandfather and I.

I hope that all of the above is strongly considered along with my grandfathers previous letter.

Sincerely
Mrs Carrie Kerrin
