RECEIVED

4/12/18

HAVANT BOROUGH COUNCIL
RE PLANNING APPLICATION
34, HESTER AVENUE.

Dear Sir,

My husband and myself
have looked at the Planning
Application 34, HESTER AVENUE.

We list our objections.

1. ? The Height of the Building
height will be restricted later
in the day particularly in
winter months.
2. How will drainage be provided
for the new scheme?
[REDACTED] Beaufort Rd already
has flooding during the
winter months.

Contd.

This room will be far
closer to the rear than the
main dwelling on site

We already experience
noise from several workshops
in Leslie Avenue. Will Sound
Proofing be installed?

We would like to know
what the 2 service ducts
will be used for.

Why has no consideration
been given to rear neighbors.
