Subject: Ref APP/24/00705

CAUTION: This email came from outside of the council - only open links and attachments that you're expecting.

Good afternoon,
I have received in the post a letter from your planning department regarding proposed tree work on my property, ref TPO 0107, at 5 Hollow Lane and the adjacent property at 19 Garden Close, Hayling Island.
The proposed tree work description states "to cut back the branches to the boundary line leaving 1-2 meters between the trunk and the boundary "
To this end I would like to STRONGLY OBJECT to this proposal as it would spoil the natural look of the trees concerned, as it is, they have been harshly pruned in the past and the shape of the trees is uneven.
The crown reduction of 4m is quite substantial and would disfigure the trees further.
I do not want my trees "pruned back in line with the fence".
I believed that the purpose of a TPO was to protect the tree and maintain a natural look and I feel that this is not going to be the case here.
If you would like to discuss this further please let me know as I'm always available to meet your tree officer here on site where I can explain the points listed above.
Regards
