Dear Ms Stewart

Your Ref: APP/18/00626 re Dolphins, 8 Brent Court, Emsworth

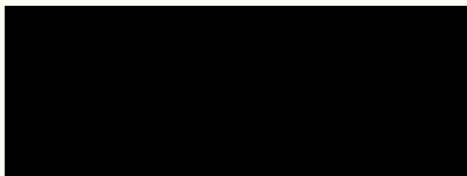

I am a little concerned that yet another Application has been submitted to fell/crown reduce 18 trees subject to TPO 0945 within Area A1 at the above address.

This follows an Application in April this year to fell 3 trees, an Application in June 2017 to fell 4 trees (mutilated and left unsightly in a previous 'crown reduction'), and an Application in October 2016 to fell/crown reduce 30 trees which included the 18 in this current Application.

The main purpose of the original planting of all the trees within this area together with a TPO was I understand to conserve and safeguard the visual amenities and screening of the locality, ideals which appear to be being gradually eroded, especially with the continuing reduction in height of the trees along the southern boundary.

I do trust that any work which may be undertaken on these remaining trees will be suitably monitored.

Yours sincerely

D.M.C. DOYE
