RECEIVED

22 April, 2024'

Dear Sir or Madam,

Your reference: APP/24/00174

Site address: 48 Fir Copse Road, Waterloooville, PO7 5HZ

With reference to the proposed development, I wish to make the following objections.

Highway safety and traffic.

The proposer already parks his van in such a way as to obstruct the pavement, meaning disabled people and parents with prams and push chairs have to move over to the road to pass. When parked on the road it makes a risk for me to pull out of our driveway as the van blocks all visibility. With building work this will only get worse. (photograph enclosed).

Effect on privacy.

From the plans it appears as though we will be overlooked by the development as it is uphill from this property.

Noise, smells and fumes.

This proposer has already turned the front garden into an unsightly builder's yard/rubbish tip by bringing all his waste back and dumping it there, causing a fire risk and home for vermin.

I also enclose a photograph of a structure he built in the back garden which just leaves a TYVEK backing and is an eye sore, together with a propane gas bottle left out in full heat during last summer's heat.

If you require any further information, please let me know.

Yours faithfully,

Planning Service,  
Public Service Plaza,  
Civic Centre Road,  
HAVANT,  
PO9 2AX.
