

Appendix D: Supplementary Information Template

SUPPLEMENTARY INFORMATION

1. Site Details SUB STATION

Site Name:	ELECTRIC	Site Address:	SWISS RD
National Grid Reference:			WATERLOOVILLE
Site Ref Number:	S4680092	Site Type: ²⁰	MICRO

2. Pre Application Check List

Site Selection (for New Sites only)

(Would not generally apply to upgrades/alterations to existing site including redevelopment or replacement of an existing site to facilitate an upgrade or sharing with another operator)

Was a local planning authority mast register available to check for suitable sites by the operator or the local planning authority?	Yes	No ✓
If no explain why: N/A		
Were industry site databases checked for suitable sites by the operator:	Yes	No ✓
If no explain why: N/A		

Site Specific pre-application consultation with local planning authority

Was there pre-application contact:	Yes/No
Date of pre-application contact:	

²⁰ Macro or Micro

Name of contact:	
Summary of outcome/Main issues raised:	

Community Consultation

Rating of Site under Traffic Light Model If Required:	Red	Amber	Green
Outline Consultation carried out:			
Summary of outcome/Main issues raised (include copies of relevant correspondence):			

School/College

Location of site in relation to school/college (include name of school/college):
Outline of consultation carried out with school/college (include evidence of consultation):
Summary of outcome/Main issues raised (include copies of relevant correspondence):

Civil Aviation Authority/Secretary of State for Defence/Aerodrome Operator consultation

Will the structure be within 3km of an aerodrome or airfield?	Yes	☒ No
Has the Civil Aviation Authority/Secretary of State for Defence/Aerodrome Operator been notified?	Yes	☒ No

Details of response:

Developer's Notice

Copy of Developer's Notice enclosed?

Yes

No

Date served:

3. Proposed Development

The proposed site:

15m high column mast with 0.6m dish on top.

Enclose map showing the cell centre and adjoining cells if appropriate:

N/A

Type of Structure (e.g. tower, mast, etc):

Description:

COLUMN

Overall Height:

15.6m

Height of existing building (where applicable):

Metres

Equipment Housing:

Length:

Metres

Width:

Metres

Height:

Metres

Materials (as applicable):

Tower/mast etc – type of material and external colour:

Metal column painted grey.

Equipment housing – type of material and external colour:

Reasons for choice of design, making reference to pre-application responses

Technical Information

International Commission on Non-Ionizing Radiation Protection Declaration attached (see below)	Yes	No
International Commission on Non-Ionizing Radiation Protection public compliance is determined by mathematical calculation and implemented by careful location of antennas, access restrictions and/or barriers and signage as necessary. Members of the public cannot unknowingly enter areas close to the antennas where exposure may exceed the relevant guidelines.		
When determining compliance the emissions from all mobile phone network operators on or near to the site are taken into account.		
In order to minimise interference within its own network and with other radio networks, (NAME OF OPERATOR) operates its network in such a way the radio frequency power outputs are kept to the lowest levels commensurate with effective service provision		
As part of (NAME OF OPERATOR)'s network, the radio base station that is the subject of this application will be configured to operate in this way.		
All operators of radio transmitters are under a legal obligation to operate those transmitters in accordance with the conditions of their licence. Operation of the transmitter in accordance with the conditions of the licence fulfils the legal obligations in respect of interference to other radio systems, other electrical equipment, instrumentation or air traffic systems. The conditions of the licence are mandated by Ofcom, an agency of national government, who are responsible for the regulation of the civilian radio spectrum. The remit of Ofcom also includes investigation and remedy of any reported significant interference.		
The telecommunications infrastructure the subject of		

this application accords with all relevant legislation and as such will not cause significant and irremediable interference with other electrical equipment, air traffic services or instrumentation operated in the national interest.		
---	--	--

4. Technical Justification

Enclose predictive coverage plots if appropriate, e.g. to show coverage improvement. Proposals to improve capacity will not generally require coverage plots.

Reason(s) why site required e.g. coverage, upgrade, capacity

N/A

5. Site Selection Process

Alternative sites considered and not chosen (not required for upgrades/alterations to existing sites including redevelopment or replacement of an existing site to facilitate an upgrade or sharing with another operator).

Site	Site Name and address	National Grid Reference	Reason for not choosing
N/A			

If no alternative site options have been investigated, please explain why:

THE MAST IS FOR SSE PURPOSES AND HAS NEEDS TO BE ON EXISTING SUBSTATION.

Land use planning designations:

NA

Additional relevant information (planning policy and material considerations):

Confirmation that submitted drawings have been checked for accuracy
