Dear Mr Speller.

I have received notification of a planning application regarding removal & construction of a Monopole at Sparkes Boat Yard, Hayling Island

Originally there was a flag pole - which was in keeping with the business & handy for everyone to gauge the velocity & direction of the wind

When permission for the current pole was granted it was stipulated it should resemble a flag pole. That is debatable! And a replacement pole (with flag) would have been good!

This new intended replacement construction does not remotely resemble a flag pole, will be a blot on the landscape but, I am certain a welcome lucrative addition to the boat-yard offers. We on the other hand achieve no benefit but a more un-sightly edifice to enjoy!

I hope you will consider carefully

Who is to benefit from this construction &
who will not.

Yours. Sincerely
