RECEIVED

Dear Mrs. [redacted]

10TH July '20

Your Ref APP/20/00436

I have lived in my property for 15 years, situated at the end of a quiet cul de sac. Views of the proposed new 3 bed house would intrude on my privacy, to which I object.

A few years ago a strong wind in a storm caused a branch to collapse from one of my trees and fall over the foot path damaging the guttering of an out building belonging to No 16 hovelean lane.

On contacting the owner I was invited into the cottage to discuss repairs and the removal of the tree branch.

It was a charming old world cottage although in need of refurbishment the building was unique.

Looking through the deeds to our house, it appeared to be part of the original KEY DELL ESTATE. I feel there must be some historical significance.

Should Havant Historical Society be made aware? of this before the planning app is approved.

Yours Sincerely,

[redacted]
