13th May 2016

Dear Mrs Lealan,

Ref: APP/16/00319

Planning Application for residential development Victoria Road.

Because of my concerns, already noted, I contacted Southern Water using their web site on 23rd April 2016 regarding their pumping station and drainage issues close to this proposed development.

On 29th April 2016 Zuleika Brattle promised me I would receive a full response to my request (ref: 8000790153) before 23rd May 2016 as my request involved a number of their departments.

Late on 11th May 2016 I received further assurances of their commitment and the attached graph which shows difficulties concerning the pumping station from January 2011 to May 2016.

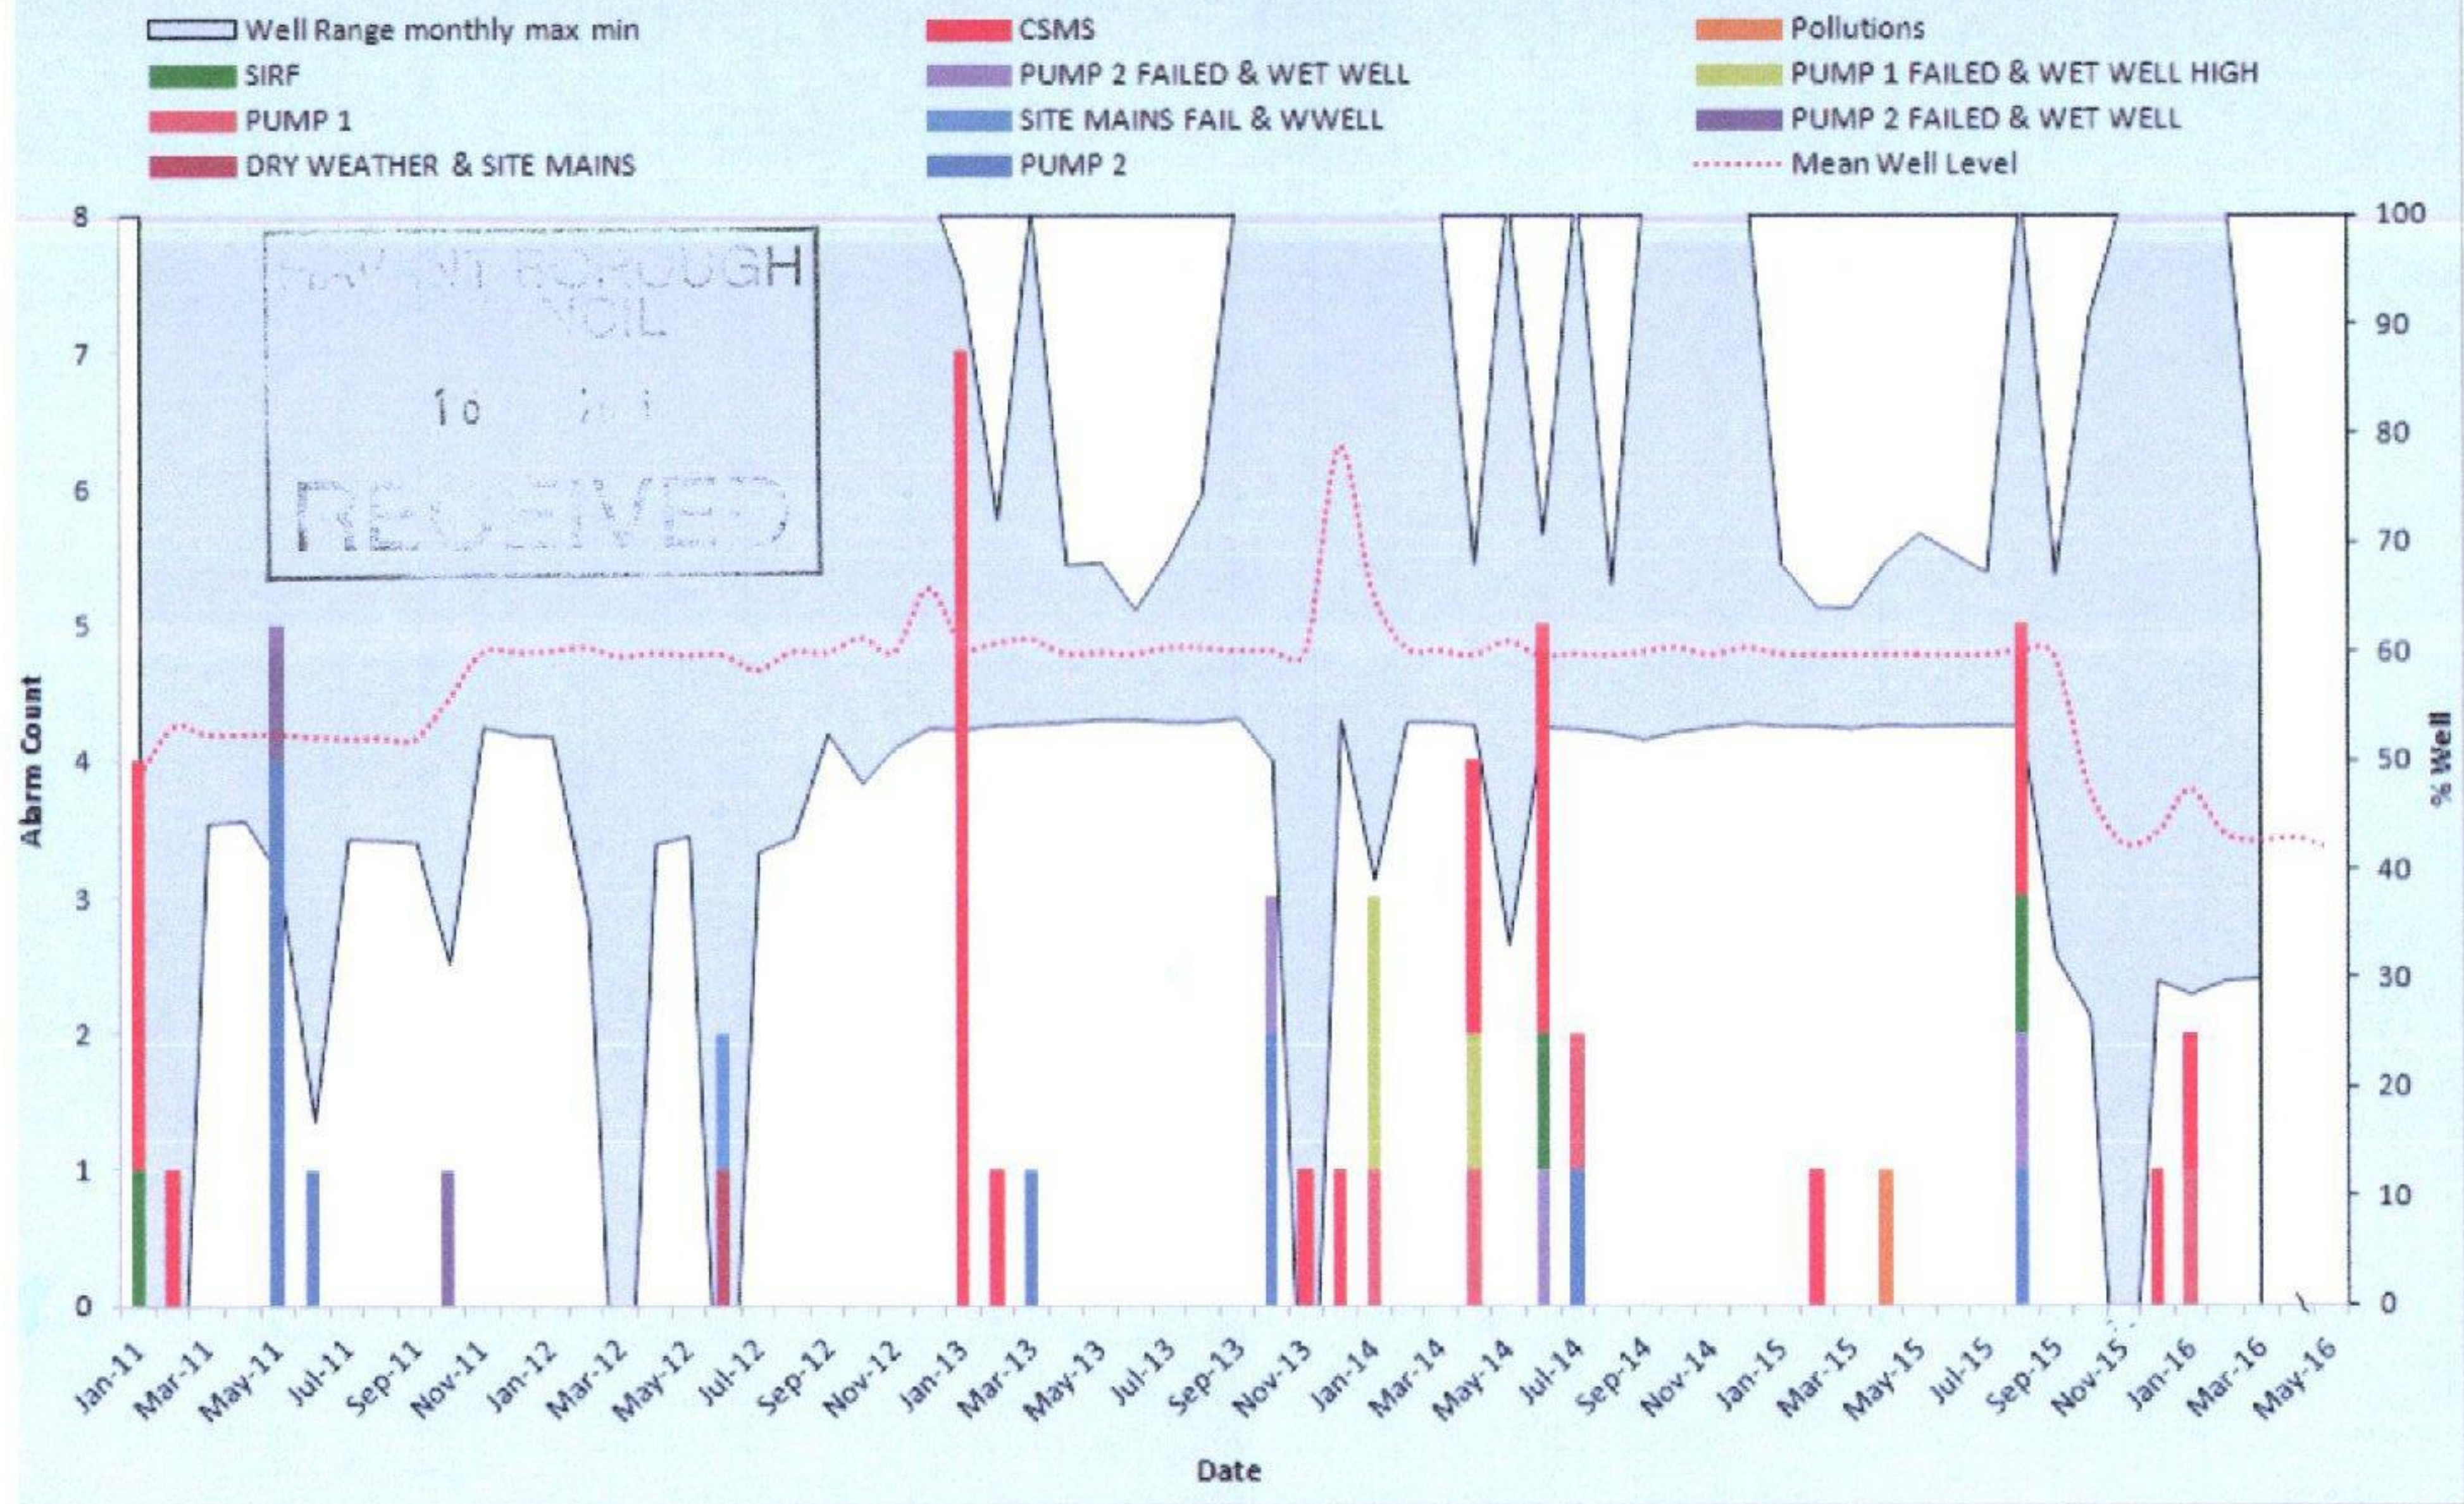

I hope you will allow the inclusion of this graph and Southern Water's full report as I have no control over the speed of their response.

Yours sincerely,

A large black rectangular box redacting the signature of Robert Woodward.
