Dear Sir / Madam,

Regarding Planning Application APP/23/00102

I would like to raise a strong objection against this proposal. There is no need for an expansion of parking facilities but more worrying is the proposed development for music in a rural area. What is the basis for this proposition? It will disturb wildlife in the area and will infringe on those who live nearby. This application is ludicrous and is for reasons of profit only. It shows no regard for the residents who adjoin the farm or the ecology of the area. I therefore object in the strongest way.

Yours sincerely
