Dear Sirs

Planning Application APP/16/00383
42 Sinah Lane Hayling Island

We are writing in connection with the above application and wish to wholeheartedly offer our support.

This is an area with a number of waterfront houses of exception design and in our view this proposed house would add to the quality of the housing stock. Many of the houses in Sinah Lane are existing Art Deco houses or their contemporary counterparts and this is what drew us to the area.

We feel that the proposed house blends not only extremely well with the designs of the existing houses but more particularly sits discretely in the landscape taking nothing away from the garden of the property in which it is proposed to be sited nor from its neighbours.

Moreover it is clear from looking carefully at the layout that the whole design has been thoughtfully considered by homeowners wanting to build something for their own use. If only there were more of this type of house being built.

We hope that you will approve the application.

Yours faithfully

J W and S J Deibel
