

REF: APP/21/00639

To planning department: Mrs T Pickup.

● Thought I would write to you after phoning you as it might be better in writing to you. There is a stream under the middle of my garage it comes down from the other side of the Hanbledon road. Do not know where it goes from mine. The parking as you come in to Margvel Close is all nearly getting bad as cars are already parking near entrance of the no through road.

There is a bend at the beginning of the road so you can not see what is coming round the bend.

● The main problem could be floods as the stream will be so close to where they are going to build, as this is flood prone land.

Yours Faithfully
