Planning Application REF: APP/16/00311

Dear Sirs,

I write in connection with the above planning application. I have examined the plans and feel that the application would be a good use of space on a large unused area. I have no concerns regarding over looking and I am sure the surface water run off will be improved by the additional dwellings and there infrastructure.

I wish to offer my full support to this application out lined in the reasons above.

Yours Faithfully

Gary Wells

(114 London Road)
