CAUTION: This email came from outside of the council - only open links and attachments that you're expecting.

Hello Selina

Firstly I hope you do not find my emails rude or offensive they are not meant to be but I just would like the reasons why my planning application is going to be rejected.

Secondly you please be kind enough to attach all correspondence to my case file as I will appeal the decision, thank you

Please find attached just a few photos of builds that have been given consent and built that seem to in absolute contrast to the reasons why mine is going to be denied, and again with the greatest respect please can I have an explanation as to why these were and are acceptable and mine is not .

1 Picture 1 is a new build built on the side of existing property .225 from the boundary 1 brick, as you can see with a large flank wall, mine is further away from the boundary, so please justify.

2 Picture 2 is new build on a corner closer to the boundary than mine, so please justify

3 Size does not impact street scene ?

4 Size and bulk on a corner on the boundary ?

5 This was built a few years ago on the side of some ones garden straight onto the pathway on a corner !

6 Rear few of picture 1 built on a corner

7 Flank wall of picture one .225 from the boundary on a corner, how come this is allowed does not impact the street scene and is so close to the pathway ? please justify

I will by all means send photos of the blocks of flats built in my street next to a semidetached house and the awful extension on the side of the church which all don't seem to impact on the street scene and their size and bulk are acceptable, yet mine isn't.

Would you also be kind enough to inform me of the building regs that my proposal will be contravening and I would like to invite you to a site meeting before any decision is made, if I need to appeal any decision I would like to informed so I can attend.

Would you please be kind enough to acknowledge that you are receiving my emails.

Many thanks and with respect
