Havant Borough Council.

PROPOSED SITE LAYOUT REVISIONS (APP/17/00388)
LAMA COURT 128-130, SEAFRONT, HAYLING IS, HANTS

Please find enclosed a copy of a plan showing revisions to the site layout at the above development, which as the owner and soon to be occupier I would ask you to consider-

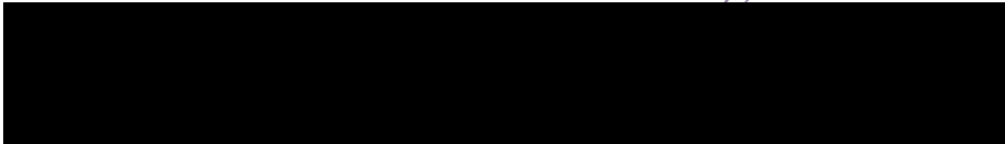

1. Bike storage lockers omitted and the drying area reduced in area
2. The new trees and climbing plants we do not feel are necessary to the rear boundary as the 1.8m fence with trellis, existing screening and garage siting will I am sure prove adequate.
3. Waste bin storage has been re-sited to the rear adjacent to the drying area.
4. The planting area next to the building at the rear has been changed to paving with tub planters, as access to the meters will be required this arrangement will work better for us.
5. Parking at the front has been moved away from the building to help with any potential noise issues, to accommodate this use of only the existing vehicular access is proposed. The front boundary having a dwarf wall and reduced size planter.
6. Gates have been introduced to the front patio/paved area.

I am unsure whether these amendments can be dealt with informally?

Should you think a site meeting to talk through our proposals would prove helpful please contact/telephone me and we can arrange a mutually convenient time.

Should you require any further information do not hesitate to contact me

Yours sincerely,

D Aylward & C MacDowell
