

Subject: Re: Planning Application APP/23/00415

[REDACTED]

Dear Ms Wells

Seacourt Tennis Club – Padel Courts

We refer to our Clubs planning application for the construction of 2 new Padel courts and would comment as follows.

[REDACTED] conduct a fund-raising society within Seacourt Tennis Club which supports juniors for their equipment, training and coaching costs.

Over the past 8 years we have supported many youngsters, donating circa £26,000 to help them progress and improve in all the racket sports that Seacourt can offer and provide.

Over this period with help from the above, Seacourt Tennis Club has produced:

- A world under 18 champion
- 3 National championship winners
- 2 Doubles championship winners
- National female singles champion
- Girls under 15 national champion

The Club also support our local schools and we would be able to help finance the introduction to padel for them to experience a new concept, which is sweeping the country and with nowhere else that is providing this sport that is easily accessible, this would really help our local children.

We feel the local Council should be fully behind our application so the community in general would benefit and encourage more youth to take up sport for their enjoyment, wellbeing and health.

We strongly request you give your serious consideration to our application due to the benefits this would bring, that easily outweigh any minor objections that would hold back and affect the majority of our community who are looking for progress and variety of choice, that Seacourt strive to achieve.

Kind Regards

[REDACTED]

(Fund raising personel Seacourt Tennis Club)
