

1 Privett Road
Waterloo Ville
Hants
RG7 5HJ

To Denise

Ref: APP/19/0024
please find enclosed documents
as requested.

The hedging we are proposing to
use is an evergreen privet hedge,
the hedge is fast growing approx
30/60cm a year.

The plants we will plant will be
at a height of $7\frac{1}{2}$ feet this means
the hedge will be $2\frac{3}{4}$ ft above the
floor level of the decking.

The hedging [redacted]
[redacted] will be planted
between - 7 and 9 plants in total.
The hedging will be ordered and planted

as soon as all parties are
happy with this. [REDACTED]

Can you please confirm the
receipt of documents and letter please,
also can you let us know
if permission is granted and we
can go ahead and plant hedging,
Spring is the best time to do this.

Yours faithfully
MPC/MCP/ML

Mrs Michaela Crookford

[REDACTED]

Please note that we have sourced the
highest Privet hedge available at 7½ ft -
as mentioned it is fast growing.

Side view of decking with
new and existing hedging.
