Your ref APP/21/00429

Dear Sir/Madam

We refer to the above application.

We understand that the proposal plan will start from in front of the existing house. This will affect our daylight [REDACTED] as well as the privacy and daylight in our front garden.

The height of the proposal will affect our daylight and privacy in our back garden [REDACTED]
[REDACTED]

The Dormer windows proposed on the east elevation will overlook us [REDACTED]
[REDACTED], intruding on our privacy. This will also take daylight away [REDACTED]

Furthermore this also will affect the daylight [REDACTED] and we object to this proposal.

We also note that there will not be a garage and some parking will be along the east elevation which will cause fumes and noise pollution to us.

Yours Faithfully
