\* Proposal for 11 Sycamore Tree Crowns  
----- T1 ----- T11 reduced to height 6m x 3m.  
within group A1. Subject to TPO 1161.  
Thank you for your letter to inform of the proposal. ABOVE \*

### Comments

Viewing the proposal outlined it is a BIG PROBLEM.  
Sycamore Trees are not the best trees: though ALL  
Trees are beneficial to our planets health. in human  
terms. Quite rightly so. As too many trees are not  
treated in the right way to preserve and as the  
function of their preservation is important.....  
Visually. it would seem so many "Reduced" trees would  
be an eye sore. also.. a loss to our air purity as  
the filter system they enhance. There is a need to  
Replace - not reduce to "STUMPS"..... ?

Over time I would consider the lines involved - at  
least replaced. Maybe not in the BULK for Reducing  
as is now. But more carefully thought over as  
a solution to STUMPS. That is NOT AN ANSWER: NO WAY  
Thank you from
