

Good morning,

We have received a letter to inform us of retrospective planning.

My concern is that the roof of this extension is high [REDACTED] and along with the workshop, it is starting to look like an industrial site.

[REDACTED]

The white plastic on the side of this extension does not fit with the rest of the bungalow. [REDACTED]

[REDACTED]

This may indicate a temporary structure, with possible intention to either modify or replace.

In summary:

[REDACTED]

The extension is currently too high and not in keeping with the surrounding buildings.

We have concerns that the current construction will be further extended or that additional structures will be added.

[REDACTED]
