Morning Rob,

Yes, my mistake – I had interpreted the existing/proposed drawings incorrectly and assumed the small tile-clad dormer to the east was being impacted.

I think we can add an informative note here – please see suggested wording below.

Bats and their roosts are protected under the Conservation of Habitats and Species Regulations 2017. All work must stop immediately if bats, or evidence of bat presence (e.g. droppings, bat carcasses or insect remains), are encountered at any point during development works - should this occur, further advice should be sought from Natural England and/or a professional ecologist.

If you have any queries, please don't hesitate to contact me.

Kind regards,

Tristan
