Your Ref. APP/25/00089

For the attention of Ms Jennie Fox

Dear Ms. Fox

Re Planning Application APP/25/00089 – 6 Crystal Way, First Floor Side Extension.

I/we wish to raise an objection to the planning proposal set out in your reference and letter of 7th February.

The details of our objection(s) are set out on a separate sheet and in a series of included photographs

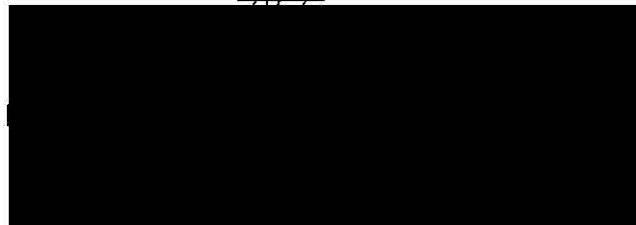

The photographs are intended to illustrate our objection(s) by asking anyone seeing them to imagine the change in outlook [redacted] should the application be approved ie – [redacted]

Also included on the attached sheet are one or two other observations – which may or may not affect the Inspectors decision.

Yours faithfully

FOR INFORMATION-

Objections and observations on Planning Application APP/25/00089

I/we note that the submitted plans do not show in detail or to any meaningful scale any reference to [REDACTED] and therefore suggest that no full judgement by a neutral can be made.

Yes the plot is shown – but not in detail enough to make a fully objective judgement.

Our objections are principally that of a potentially dramatic, dominating, and detrimental change [REDACTED]

We ask the Inspector to fully consider the consequence of the proposal on ourselves,

By way of additional observation – I/we note the declaration on the submitted application of “there being no trees within falling distance” of the proposed extension.

A look at some photographs taken within the last 2 or 3 days shows this to be not true. Admittedly the trees in question are not vulnerable 200 year old Oak trees – but are trees nonetheless; and they will grow.

Another observation evidenced by photographs is that the owner of 6 Crystal way has in quite recent times had subcontractors install new fencing around his/her property.
