Attn. Mr. Oliver planning dept.

Ref. APP/17/00753 – no 1 Maylands rd. Bedhampton,

Demolition of existing dwelling and erection of 5 dwellings

I would start by saying that obviously I am not resident in the Bedhampton area, I do however walk my dog regularly past the premises in question coming down the hill , turning left into Maylands rd, going up Scratchface lane and back up the hill home.

I applaud Havant councils attitude to development such as that which has happened in the old quarry (homebase and bowling alley site) and the scratchface lane development.

As a grandparent I know the difficulty for the next generation to be able to afford a home of their own , and I believe that if space can be found to build more homes this is a step in the right direction.

What has this to do with no1 Maylands ?.

This site has one dwelling house on the plot that would house 1 family, if this development went ahead would create 4 extra dwellings thus in a small way help the housing situation for the next generation

There will obviously be objections from the neighbours to no 1 but I would encourage this type of development and once again am pleased with Havant's Attitude and foresight in this matter.
