Dear Sirs, Re Planning Application No 1700656.

I very strongly object to the proposed development of a Field Store on this green field site on Manor Road Hayling Island. This would convert the site to industrial use, which is entirely inappropriate for this location in the middle of green fields.

Any such development should be in a location where the customer footfall benefits adjacent shops, not in the proposed site.

Hayling has a unique nature, which supports Holiday sites as well as day trippers. This provides benefits to the local economy as well as providing much needed open space for the Portsmouth and district area.

Please protect our green field sites.

Yours faithfully,

ALAN HAUGHTON
