Dear Sirs

23/25 Belmont Grove Bedhampton PO9 3PT

Please see enclosed my Planning Application for the above which seeks to establish a temporary Planning Permission for 9 months with respect to the storage container.

There is an existing block of garages on site to serve the various units on site. The garage allocated to this site is structurally unsound and my Client is in negotiations with the landlord to refurbish this garage. This would then provide adequate storage to enable the loss of the container.

If you have any questions on this matter, would you contact me at this Office.

Yours faithfully

Edward Caush
