Re APP/24/00191
Regarding revised information for
34 Pennant Hill, Havant PO9 3JZ.

My former objections still apply.

However, with the withdrawal of the proposal for an additional 4 bedroom house also on the same site I fail to see why everything will be squeezed into one area of the plot. This is not in keeping with the rest of the street. It would appear that the intention is to get this proposal through planning and then submit a further build later. Why else would the existing garage be demolished and all development shifted to one side of the plot. There is nothing in the plans as to what he intends to do with the whole site. It is unnecessary to knock down a garage and rebuild on the other side for no reason. It will make the plot completely unbalanced with even more hard standing causing flooding down the street.

Yours faithfully
