Dear Sirs,

Re: Planning Application APP/21/01010

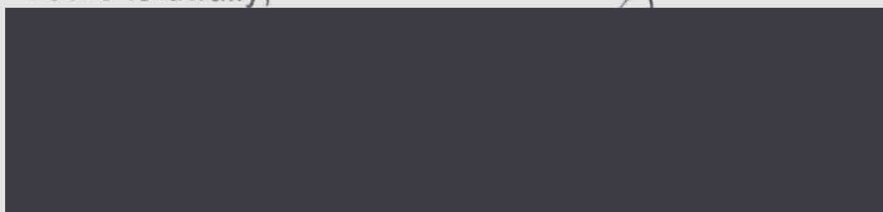

We certainly wish to register our profound complaint concerning the above Planning Application which we must say has definitely NOT been thoroughly thought through - obviously financial gain seems to be the over-riding factor.

Our overwhelming disapproval of the plan is based on the obviously complete lack of adequate local facilities – schools, shops, dentists, doctors' surgeries etc. Not having this support for such a large and unwelcome residential development in this already-crowded area is just foolhardy and NOT viable.

We are also, of course, concerned that the amount of extra traffic that would obviously be generated by such a large housing development would, without a doubt, severely overload the already-inadequate road network.

So, developers, please re-think your un-viable plan and do NOT continue to build here as we residents in this area have more than this borough can cope with already.

Yours faithfully,

cc. Warblington & Denvilles Residents Association
