Planning Application APP/18/00724

Dear Mrs Haywood

We write to object to the above planning application on the following grounds.

Increased pressure on our existing infrastructure and emergency services which are seen to be struggling.

Considerably increased traffic congestion on local roads which were never intended for such heavy use.

More damage to the environment by pollution and loss of habitat for a large number of species affecting the local ecosystem.

Loss of productive agricultural land.

Flooding and drainage problems. I have seen the proposed building area flood many times over the years.

Proposed new houses will overlook existing properties resulting in loss of privacy.

I sincerely hope that the foregoing objections will be borne in mind when the application is considered and will carry weight to reject the planning proposal.
