RETROSPECTIVE APPLICATION

Please find enclosed as requested an amended planning application to cover revisions to the above submission for which works are now mainly completed and occupied.

As you are aware my client Mr A. Page has eventually purchased this property and is now in the process of finishing the work carried out by the previous owner. This application is to cover the items raised in your letter of the 17th Dec 2016 namely alterations to windows and the rear single story roof design, a small side extension to form a bay and cloakroom and the more significant alteration to the Garage to incorporate a store room over lobby and covered porch area and in addition a link at first floor to create a store/wardrobe to the front bedroom.

As agreed at our meeting the roof is to be altered to form a barn hip with a small window to the front elevation to reduce the bulk and impact of the existing large gable.

Should you require any further information please do not hesitate to contact me, forms have been completed on line through planning portal.
