Applicant's name

Mr Smith

Why you think permission should
or should not be given

Permission shouldn't be granted as in the immediate area e.g. Knox Road there is already considerable development taking place with further planned. Traffic and highway problems are already at breaking point, with the volume of cars outnumbering available parking spaces. Meyrick Road already suffers from parking issues without completion of the current development and another 2 three bedroom houses will add to this problem. The plans do show a garage and drive but the property on the right-hand side would struggle to access the garage due to the tapering of the driveway and it is difficult to see how you would exit a vehicle when parked in the drive on both properties due to width of the drive (opening car doors).

The design of the buildings are not in keeping with existing properties in Meyrick Road and a single property developed with thought out parking and architecture in keeping with the area would be more suitable.

Has any thought also be considered on where the numerous trade and construction materials are going to be sited during the lengthy project?
