I am writing to object to the plan to build four houses in the car park in Robin Gardens. It seems so inappropriate. They will back onto a strip of Ancient woodland ~~the~~ which runs all around the castle. This host much wildlife & flowers. Trees - Yew Oak holly Hawthorn wild roses Hawthorn stone all food for birds - bats owls, numerous wild flowers - autumn crocus holly celadine wood anemone, vials poppies blackthorn, fungi. What a pity to spoil this at a time when Nature is under such pressure.

Robin Gardens is a cul-de-sac
how on earth will builders
traffic get through

The land is heavy clay, there
will be pile driving excessive noise
car spaces will be taken away
they are well used by residents

None of this makes sense I
wonder if there is another way to
get access into farm fields opposite

This is upsetting for the residents
I have lived in the road for 46
years

We are on the verge here
next to Portsmouth Council for
and we do not get a good deal to transport
Goodness knows the cost of transport
Let Portsmouth look at studies.
The own Brown sites

hoping to get a Your
good conclusion
