Subject: RE: Application 18/00151 New Boat Workshop and Sail loft

Dear Emma, as the applicant has sent revised plans with the this planning application I feel I need to re confirm my objection, as I would not want my lack of response to be considered as an acceptance of the revised plans.
I have attached new photographs showing a roofing batten with cross piece attached at 4.5m.

This shows the extreme impact that the sail loft of height 4.5m and length of 8.1m will have.

Can I ask you to insert these into the planning application web portal.

With thanks

Kind Regards

Wayne and Jenny Miles
