Dear Madam,

14th May 2018

Ref. Revised planning application
at 6, North Crescent.

Reference above planning application, I am appealing against planning permission being granted on the grounds that the Juliette balcony at the rear of the property will clearly overlook my garden and sun terrace.

One of the reasons I purchased this property is that the rear garden is not overlooked by any neighbours, thus giving me total privacy in my garden.

If planning permission for the window and Juliette balcony is granted then my privacy is going to be completely lost and the value of my property reduced.

Please take my views and considerations into account when considering this application. Thank-you.

Yours faithfully

(Mrs. B. M. Minter)
