Planning Application objections

T BOROUGH
COUNCIL

5 APR 2022

RECEIVED

- Large Scale developer's on Hayling Island
- Saltmarsh Lane - We object to the development on this site, the area has wildlife in abundance and using greenfield sites for new homes is not the way forward. This area will be boggy and any overflow from new housing will end up in the sea, this area is totally unsuitable for New Homes, the Islands infrastructure is too small to cope.
- Fathom Reach and Rook Farm
We object to these developments.
The Island is in need of much

updating. HBC do not attend to roadside, lampposts, car parks and general upkeep of the Island. More housing will not improve the area and the area ~~has~~ needs better roads access for the residents as is without extra homes and extra traffic in the summer and bank holidays.

Please submit our objections to all 3 developments. Before any developments the Island needs much attention in making it a plush, updated area to live and at the moment it looks unloved by HBC.

This may not look pleasant but gave up trying to navigate your website.

Kind Regards
