

20th October 2020

Mr J Toole
Planning Development
Havant Borough Council

Dear Mr Toole

**PROPOSED LOFT EXTENSION AT 25 CHARLESWORTH DRIVE (resubmission)
Ref: APP/20/00831)**

[REDACTED] I am writing to register my objection to the above Planning application. My grounds for this objection are as follows:

- The new plan impacts on the street view of the area. As it includes a large dormer, changing the roofline of the house. Houses in this part of Charlesworth Drive have the original pitched roofline, thus this extension will be out of character for the neighbourhood.
- The plan has a negative impact on the privacy of the neighbouring houses. The windows of this revised plan overlook the neighbouring gardens, with large dormers overshadowing and overlooking the gardens of the neighbouring houses.
- The plans include up to five bedrooms, an increase of occupancy not in keeping with the original design of the house, and potentially leading to excessive numbers of vehicles parking around the property.

This resubmitted Planning Application does not address the original objections to the two previously refused application (APP/20/00137 and APP/20/00501). The dormers, whilst somewhat changed remain substantially oversized for the area and style of house. The revised plans still include windows which compromise the privacy of [REDACTED]

Yours sincerely

[REDACTED]
