Dear Sirs

Re: Retention of Shed to rear of 9 Brunel Way Bedhampton

[REDACTED] with reference to your letter dated October 18, 2018, I would like to OBJECT to the subject proposal because of the following reason :

Each house in Hawthorn Mews was provided a shed by the developer when purchased. It is of suitable size and It provides a uniform and beautiful look across all the gardens. In my opinion, the structure the subject house built is more than a shed. It is too big and is more like an extension of the house rather than a shed.

Hawthorn Mews is not a big development and houses are not very widely spaced. If the subject proposal is allowed, I am afraid our neighbours might follow suits. The overall space will be diminished and our living environment will be greatly affected.

Thank you for your kind consideration,

Yours faithfully,

[REDACTED]
