5. What Are You Applying For?

Are you seeking consent for works to tree(s) subject to a TPO? ☒ Yes ☐ No

Are you wishing to carry out works to tree(s) in a conservation area? ☐ Yes ☐ No

6. Tree Preservation Order Details

If you know which TPO protects the tree(s), enter its title or number below.

TPO 2012 : (1 OFF OAK TREE)

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

8. Trees - Additional Information

Additional information may be attached to electronic communications or provided separately in paper format.

For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.

For works to trees covered by a TPO

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details)

1. **Condition of the tree(s)** - e.g. it is diseased or you have fears that it might break or fall: ☐ Yes ☒ No
If YES, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert.

2. **Alleged damage to property** - e.g. subsidence or damage to drains or drives. ☐ Yes ☒ No
If YES, you are required to provide for:

Subsidence

A report by an engineer or surveyor, to include a description of damage, vegetation, monitoring data, soil, roots and repair proposals. Also a report from an arboriculturist to support the tree work proposals.

Other structural damage (e.g. drains, walls and hard surfaces)

Written technical evidence from an appropriate expert, including description of damage and possible solutions.

Documents and plans (for any tree)

Are you providing separate information (e.g. an additional schedule of work for Question 7)? ☐ Yes ☒ No

If YES, please provide the reference numbers of plans, documents, professional reports, photographs etc in support of your application. If they are being provided separately from this form, please detail how they are being submitted.

SEE ATTACHED SKETCHES.

9. Authority Employee / Member

With respect to the Authority, I am:

- (a) a member of staff (c) related to a member of staff
(b) an elected member (d) related to an elected member

Do any of these statements apply to you?

☐ Yes

☒ No

If Yes, please provide details of the name, relationship and role

10. Application For Tree Works - Checklist

Only one copy of the application form and additional information (Question 8) is required. Please use the guidance and this checklist to make sure that this form has been completed correctly and that all relevant information is submitted. Please note that failure to supply precise and detailed information may result in your application being rejected or delayed. You do not need to fill out this section, but it may help you to submit a valid form.

Sketch Plan

- A sketch plan showing the location of all trees (see Question 8)

Para 7 of Application: Identification of Trees and Description of works continued:

1. In approx. 2017 the area of land at 51 Longwood Avenue had been developed to accommodate a new build house on this plot. It is assumed, because this is a fairly young oak tree that development planning had only been granted post of when this Oak tree attained a Tree Preservation Order No 2012. This house being new and judging by the condition of the tree itself represents the first time an application has been submitted for works to be conducted on this Oak tree.
2. Permission is sought to therefore to return the tree to a shape consistent with BS3998(2010) where possible and Fig 1 shows the approximation of the shape needed to reduce the crown by 4 mtrs, all lateral growth by approx. 4mtrs on the Northern Eastern side, approx. 4 mtrs on Western side, approx. 4 mtrs on the North facing limbs, and 2 mtrs on Southern limbs which are stifled by growth from trees behind. The tree would also be completely dead wooded during this exercise.
3. This tree has simply grown in the direction of the arc of the sun. This allows for a boundary trim to achieve clearance over No 49's property as even now dead wood is falling from it of size onto the neighbours shed.
4. Currently the lower limbs prejudice the fence panels and the neighbours shed and these needed to be reduced right back close towards the trunk to prevent this occurring again within a few years and sustaining damage to the properties. Currently you cannot walk under the tree without hitting your face and upper body on the low hanging limbs and thus should be reduced to allow safe passage when moving and maintaining the rear garden area.
5. Please note it is practically impossible for a climber's weight to be supported in any less measurements, especially when anchored into the highest growth point that will safely support his weight and movement throughout the canopy.

Tree location

Approximation of the shape needed, reduce the crown by 4 mtrs, all lateral growth by approx. 4mtrs on the Northern Eastern side, approx. 4 mtrs on Western side, approx. 4 mtrs on the North facing limbs, and 2 mtrs on Southern limbs which are stifled by growth from trees behind. Please note it is practically impossible for a climber's weight to be supported in any less measurements, especially when anchored into the highest supported growth point.

Requirement to perform a boundary trim on the lower branches of approx. 2.5 mtr into the garden of No 49 as it overhangs their neighbours garden, thus bringing this back into line exercising the care of duty the applicants must have over the neighbour's garden, reducing the risk of damage to the fence and the neighbours shed.
