21st November 2023

Dear Sirs

PLANNING APPLICATION APP/23/00820

Thank you for the opportunity to comment on the planning application 23/00820. I wish to make the following observations:

1. The drawings/dimensions provided on the web-site were initially very difficult to read and my remaining points are based on my own interpretations as best as I can judge.
2. The proposed two-storey side construction encroaches upon an existing garden space between Numbers 33 and 34 Pennant Hills and the loss of this space is undesirable within the current outlook of the properties and surrounds.
3. Trees will need to be removed to make way for the construction and this is again, undesirable. Trees and shrubbery have already been removed from the land at the other side of Number 34 during the past 6 months to the detriment of the property and surrounds outlook.
4. Access to and departure from the proposed construction and demolition sites is difficult with vehicle movements and parking compromising the safety of existing home-owners. I observed these difficulties on an almost daily basis earlier in 2023 whilst renovations and garden destruction was underway within Number 34.
5. With environmental sustainability in mind, it seems bizarre to be considering the demolition of a perfectly good double garage with well-established access while building a replacement as part of the proposed new construction.

For the reasons given above, I object to APP/23/00820.

Yours faithfully
