Objections to:

Planning Application for 34 Pennant Hills, Havant PO9 3TZ
Ref APP/23/00820

Demolition of double garage, construction of two storey side and second storey front extensions, new garage.

My objections are as follows:-

- It will dramatically change the style of the street with its open spacing between properties
- The new owner has already raised to the ground most the area around the current house removing greenery and trees and put in a lot of hard standing. Further development will effect drainage in the street

Planning Application for 34 Pennant Hills, Havant PO9 3TZ

Ref APP/23/00829

Erection of 1 4 bed house on land belonging to 34 Pennant Hills

My objections are as follows:-

- The vast increase in traffic and congestion in the street on a tight busy corner is a safety issue both in Pennant Hills and out onto the main road.
- The whole design, appearance will not be in keeping with the rest of the street.
- The remaining tree and small green area in the property will go.
- Effects on the drainage with the loss of foliage and the ground covered by buildings and hardstanding
