## 5. What Are You Applying For?

Are you seeking consent for works to tree(s) subject to a TPO? ☐ Yes ☒ No

Are you wishing to carry out works to tree(s) in a conservation area? ☒ Yes ☐ No

## 6. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below: tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

e.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

The row of conifers require a cut in height & depth as they're overgrown having not been cut back since 2012. Yew & bay trees cut back around summer house.  
The trees on the east boundary require cutting back and reducing in height.  
The trees are encroaching on the garden, and the sycamore causes our neighbors garden to be shaded unless cut back every couple of years.  
Basically, the trees require tidying up, nothing dramatic as we love our trees.

## 6. Tree Preservation Order Details

If you know which TPO protects the tree(s), enter its title or number below.
