Description: Ground Floor rear extension, alteration and extension of roof.

Dear Mrs Wooden

Interest and general line re. Person making representation.

I write in connection with the above planning application. I have examined the plans and I know the site well. I wish to object strongly to the proposed rear extension on the grounds of privacy and outlook.

The proposed extension to the east will have one dormer and two further windows directly over looking our property, rear garden and into our property. We currently can look out of all our rear windows with no one overlooking and we can enjoy our garden in privacy.

With this proposed extension we will no longer be able to enjoy the privacy which we have done so for many years.

We hope you will take our objection seriously and reject proposed extension as it currently is proposed.

Yours faithfully,

Paul O'Brien
