Dear Sirs,

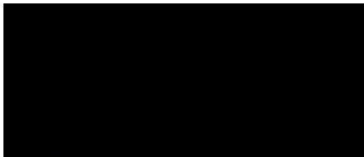

Ref APP/18/00134

I am writing to object to the situation at Fair Acre where there is a window overlooking other gardens in the road. We have one which overlooks my own garden and the owners there have installed frosted or textured glass.

I do feel that the occupiers of Faire Acre could so easily instal this type of glass which would be permanent and not subject to deteriotaton in our sometimes very bad weather.

I would therefore ask you to reconsider this request on behalf of several neighbours.

Tours sincerely,

Dr David Ford
