Subject: APP/17/00007/Outline Planning Application for Rook Farm, St Marys Road, Hayling Island

Dear Mr Eaves

As local residents we cannot see how the Island will cope with another 200+ dwellings.

- *The roads are too narrow and there is no room for widening.
- *The Langstone Bridge was not built to take the current amount of traffic.
- *The housing development currently being built off Station Road (West Town) will be adding possibly a further 80+ vehicles to the already long traffic queues, especially at peak times.
- *More residents means more call on our water supply and drainage and less chance to see a doctor or dentist.
- *We have top quality farming on Hayling which supports the important wildlife in the area. This will be destroyed by too much development.
- *Hayling, over the years, has specialised in superb sports and holiday facilities which will be hampered by constant traffic jams and overcrowding!!

Please do not ruin this wonderful Island!

Evelyn and Clive Osborne
30 North Shore Road
Hayling Island
