To: Planning and Development Shared Mailbox <planning.development@havant.gov.uk>;

dear sir , i wish to object to the planning application for the above on several grounds. i have lived in haven road since september 1975 and this site has only been open for 8 months a year closing on 31st october and re -opening 1st march since that time. item 15 on the planning application states that the site cannot be seen from any public road, footpath, bridleway or public land but is bordered on all 4 sides by public road, footpath and public land from which the caravans can clearly be seen from nutbourne road, haven road and eastoke avenue. there is a sign on the gate stating ring site manager between 10am and 4pm for access to site as the gates are chained and padlocked after 4pm the sign says closed. appendix c item 20 states that they are to maintain boundries in good condition but the bourndry fence in haven road is in poor condition with severly overgrown grass and weeds they say this grass is not theirs on which there appears to be an abandoned vehicle [land rover discovery]. item 14 states no noise between 11pm and 7am but last year there was loud music up to 2am on some occasions. during the summer on several occasions vehicles and cyclists have exited the site without due care to vehicles or padestrians on haven road. yours faithfully j veitch [mrs]. 54 haven road po11 9ry
