Planning Application: 380 Sea Front #1

Your Ref: APP/17/00529

Dear Sir/Madam,

I am writing to object to the above application which is far too high and wide for the plot and is detrimental to the surrounding area. Hayling will "sink" soon with all the extra development on the Island including the proposed tidal development which by the way is unnecessary, it will take trade away from our local shops and possibly eventually close them down.

There is no planning for extra facilities such as doctors surgeries, schools etc to take all these extra people.

Another very important factor is the bridge as the only way on and off the Island except for the ferry which is situated in the S.W. corner of the island and that doesn't take cars. There only had to be one car parked on the road leading off the island and the

gridlock can easily block to the Church Road
from about and beyond. This makes it very
difficult also for the emergency vehicles
and other emergencies

I do hope you will have another look
at this application and hopefully modify
it.

Yours faithfully
