Ref. Planning Proposal APP/18/00672 land off Westwood Close Emsworth.

Dear Mrs Haywood

Many residents of the borough in Emsworth and surrounding areas take much satisfaction and enjoyment from the fact that there remains areas where indeed residents and visitors alike can still be reasonably close to a natural environment.

In recent years we have seen land made available for the development of new properties; (East of Redlands Lane Emsworth, North of Bartons Road Emsworth, West of North Street Westbourne, and North of Havant Road close to Fortunes Way) and now presently under construction West of Horndean Road Emsworth. Movement by road is choked in many areas due to such developments. Queuing on the Havant Road west of Emsworth is now a regular morning occurrence.

By allowing the above development, destruction and contamination of another open natural space would be a dreadful impairment to the boroughs responsibility to provide for and nurture our natural environment.

It is presently used by many as a place to enjoy peacefully and unfettered by noise, pollution, cars and large vehicles. A space used by many wild life species, so important to the wellbeing of a shared community.

Please do your supreme effort to deny this development for the reasons stated, for the sake and on behalf of all residents, visitors, wild life here now and to come.
