Dear Mr Weaver

Your Ref; APP/16/00021

I am writing concerning the above planning application. I would like you and the committee to take into consideration the following points

- 1) The lane is very narrow especially near the plot in question
- 2) The lane has a lot of pedestrians both school children on the way to Westbourne school ,walkers (incl. walkers for health) and horse riders
- 3) At times of heavy rain the drainage from the top of the hill the water runs down towards Westbourne flooding that end of the lane which is in West Sussex (I believe there is permission granted for 6 or may 9 houses in the field to the north on land which is much higher than the lane which make the position worse)
- 4) I believe that in the Allocation Plan of July 2014 it was stated that there was no need for more permanent gypsy and traveller sites until 2027

Just as a point of interest the fields on the north side of the lane were White belt in the 60's I understand there is no such thing now, and the lane Sussex part of the used to flood then despite ditches along the full length of the lane. It was possible for my children to walk to Westbourne in the ditch, (in their wellies) which they greatly enjoyed

I hope these points are taken into account when you make your decision.

Yours faithfully

Gina Reeves(Mrs)
