Dear Madam,

Drive proposals at 70 Rails Lane, Hayling Island

I'm writing regarding an updated proposal to the parking/drive arrangements at the above property submitted by my neighbour Mr James Brown.

I have spoken to him about the original proposal and the new proposal. I am very supportive of the latest proposal. The original proposal - an extension of a wall between our properties to the roadside in Rails Lane would make turning left onto Rails Lane from my property not only difficult but also unsafe as I would have to swing out onto the other side of the road and potential oncoming traffic to make the turn. The new proposals leave the entry/exit into my driveway as they are now. Therefore, I'm fully supportive of the latest proposal on safety grounds.

Thank you for your assistance in this matter and I look forward to hearing from you in due course.

Yours sincerely,

MD Matthews
