Civic Centre Road
Havant
PO9 2AX

8th. March 2021.

For the attention of Tina Pickup, Senior Planning Officer.

Dear Tina,

Re: Bayith Rest Home, Bevan Road, PO8 9QH. APP/20/00895.

Having regard to the above application I would confirm that the proposals allow for 2 additional rooms. These rooms will only be supplied with basins which will have basin taps fitted.

The taps will be 'Arborg – model A1' and will be regulated thermostatically controlled mixer taps. Maximum operating pressure of 5bar and a minimum pressure of 0.3bar. All controlled with ball-o-fix valves. As such a Scenario 3 or 4 will be met, so complying with Code Level 3 [4]. This would reflect an overall maximum usage of 110 l/p/d.

The additional 2 residents will share all other existing fixtures and fittings such that the total water consumption from occupiers of the development will not exceed 110 litres per person per day. These measures will be maintained to ensure compliance with this water efficiency in perpetuity.

Yours sincerely,

D.J. Boddy.

Cc: The Directors, Bayith Rest Home.
